

## Grant allows kids computer access

Richmond Day Nursery would like to thank the Wayne County Foundation for their generous grant enabling us to purchase 10 used computers from IU East.

The computers are used by the children to play educational games. Exposure to computers at a young age helps the children be prepared for technology in the elementary classroom.

Our sincere thanks to Wayne County Foundation for helping us provide a high quality program for the children.

Carolyn Bryant,

Director,

Richmond Day Nursery
